THE DIGITAL REVOLUTION: PREDICTABLE CLINICAL IMPLEMENTATION

This lecture is sponsored by Kuraray Noritake Dental

Tuesday October 27, 2026

Maestro's Caterer's 1703 Bronxdale Avenue, Bronx, NY 10462

Buffet Dinner and Open Bar at 6 pm

Lecture at 7 pm- 3CE credits

\$35 for BCDS members/\$75 for non-members/ free for residents of Bronx hospital programs

This lecture focuses on highly esthetic tooth and implant-supported restorations through implementation of digital technologies. A detailed update on the latest materials, workflows and techniques will be presented.

- Treatment time optimization and better clinical outcomes are possible with digital tools from the diagnostic phase through facially driven mock-ups and 3D printing alternatives.
- Update participants in new methods to elaborate long- term provisional restorations and their respective polishing protocols for optimal esthetics and soft tissue response.
- Review step-by-step clinical protocols for tooth preparations and bonding optimization of full-ceramic CADS/CAM restorations with evidence-based concepts.
